Ref.: 1007_388 **Date:** 28 Sep - 02 Oct 2026 **Location:** Dubai - Marriott Hotel Al Jaddaf, Dubai
Fees: 4500 **GBP**

Leading Change and Transformation is a 5-day course delivered by Mars Training Centre at international venues in London, Dubai, Munich, Prague, and Johannesburg — designed for senior leaders responsible for driving meaningful organisational change.

The data on organisational change is uncomfortable: roughly seven in ten transformation initiatives fail to deliver their intended outcomes. The reasons are rarely strategic. Most failures trace back to weak diagnosis, fragile stakeholder coalitions, poor communication, and leaders who underestimate how much of their own time and emotional energy the change will demand.

Across five days, you will work through the full change leadership cycle — from honest diagnosis, through vision setting and coalition building, to sustained communication and personal resilience. The frameworks are practical and the cases are real.

What You Will Learn

By the end of this programme, you will be able to:

- Diagnose the type, scale, and readiness of the change your organisation faces.
- Set a clear, compelling vision that connects the change to strategic intent.
- Map stakeholders and build the coalition needed for change to stick.
- Apply structured change-leadership models such as Kotter, ADKAR, and Bridges where each is appropriate.
- Communicate change in ways that win hearts and minds, not just minds.
- Manage your own resilience and energy through a long change cycle.
- Identify and remove the most common obstacles to change in your organisation.
- Build a personal change-leadership plan for the 90 days after the course.

How You Will Benefit

You will leave with a clear personal plan for the change you are leading and the disciplines to sustain it, and a Mars Certificate of Completion.

Your organisation will gain a senior leader who can lead transformation without burning out the organisation or themselves.

Your Mars Certificate and Fee
